<p>S2O - Subscribe to Open is one of the transformative models that aim to move subscription journals to Open Access (OA). S2O does this by maintaining the existing customer and subscriber relationships that know and value the contents of a journal with little effort and no additional costs. These Institutions are asked to subscribe as usual, and as long as EDP Sciences receive the expected subscription income, then the current volume will be made available to all in fully open access.</p>
